THE CENTREPIECE

Born from the earth and shaped by time, every slab of marble carries veins that tell its own story. No two are alike, for nature never repeats itself. Solid beneath the touch and timeless in beauty, it brings a quiet confidence that naturally anchors a space.

More than a dining table, it becomes where mornings begin, celebrations linger, and generations gather. A place where stories are shared, meals become memories, and life's moments unfold. Not simply a piece of furniture, but the heart that gives every space its meaning.

"Some of life's best moments happen without planning. A quiet breakfast. A long dinner that turns into laughter. Conversations that stay long after the plates are cleared. At the heart of these moments is the table."

**The Centrepiece
isn't just seen.
It's lived with.**

CHOOSING YOUR MARBLE SURFACE FINISH

When selecting a marble surface, you are essentially choosing between different levels of visual drama and practical durability. The "finish" refers to the final texture and sheen of the stone, which dictates how it will age and how much work it will take to keep it looking pristine.

Marble Surface	Maintenance Level	Scratch Resistance	Stain Resistance	Etch Resistance
Polished Finish (Sealed Gloss)	Low	High	High	High Anti-Etch Coating
Honed Finish (Sealed Matte)	Medium	High	Medium	High Anti-Etch Coating

THE CENTREPIECE

2026

CATALOGUE

TerraVein

A person wearing a brown coat and a gold watch is standing next to a large, round, marble-topped table. The person's hands are resting on the table. In the background, there is a brown leather armchair and a small table with books. The scene is set in a modern interior with wood paneling and a teal curtain.

*The Centrepiece isn't just seen.
It's lived with.*
